Professional Summary

- Front-end Developer** with a strong foundation in JavaScript and React, bolstered by 10 years of technical support experience. Skilled in building dynamic, responsive web applications with a focus on user experience, performance optimization, and reusable component design. Highly adaptable and solution-oriented, eager to leverage technical support expertise and software development skills in a front-end development role.

Key Skills

- Languages & Frameworks:** JavaScript (ES6+), React.js, HTML5, CSS3, Tailwind CSS, MongoDB
- Tools:** Git, GitHub, Chrome DevTools, VS Code, Netlify, Figma
- Development Concepts:** Responsive & Mobile-first Design, State Management (Hooks), Component-based Architecture, RESTful APIs, Microservices
- Soft Skills:** Communication, Problem-solving, Team Collaboration, Customer-focused Mindset, Troubleshooting.

Relevant Experience

Front-end Web Developer

Freelance Projects, bootcamp & Client Work | 2023 – Present

- Developed user-centric, responsive web applications using React, JavaScript, and Tailwind CSS, with a focus on clean code and performance.
- Designed and implemented a Todo-list app with state management using hooks, integrating local storage for persistent data across sessions.
- Created modular and reusable React components to streamline the development process and ensure consistent UI across applications.
- Built mobile-first web layouts, enhancing cross-browser compatibility and performance across multiple devices.
- Deployed projects to Netlify, utilizing Git for version control, and maintained continuous integration pipelines.

Technical Support Specialist

Xbox, Smartfrog(Berlin) | 2013 – 2023

- Delivered tier-2 technical support with a 90%+ satisfaction rate, providing troubleshooting and issue resolution across hardware and software integrations.
- Collaborated with engineering teams to identify and document technical issues, contributing to knowledge bases for improved support efficiency.
- Authored internal documentation and scripts to optimize support workflows, building a foundation in debugging and utilizing REST APIs in troubleshooting web applications.
- Enhanced customer experience by swiftly diagnosing and resolving technical challenges, demonstrating a customer-centered approach and problem-solving agility.

Education

Full Stack Web Development Bootcamp

WBS Coding School, Berlin | 2023

- Gained hands-on experience in full-stack development, with a focus on JavaScript and React.
- Developed multiple web projects showcasing proficiency in front-end and back-end technologies.

Computer Science Fundamentals (Self-study)

- Studying data structures, algorithms, and advanced React concepts through online courses.

Certifications

- JavaScript Algorithms and Data Structures | LinkedIn Learning
- React Developer Course | LinkedIn Learning
- Full Stack Web Development Bootcamp | WBS Coding School, 2023

Portfolio Projects

- [Gamified Learning Web App for Babies](#) | React.js, Tailwind CSS, Local Storage
